# EXPERIENCE THE DIFFERENCE

## **PERFORMANCE GUARANTEED BY MAXIMA RACING OILS**

Maxima Racing Oils was created for world-class racers who challenge the limits of possibility. Their demands on equipment drive us to look beyond conventional ideas and to exceed industry standards. It's in our DNA to identify problems, formulate solutions and execute at the highest levels of competition. A simple goal to make things better than ever thought possible.

Maxima believed it could change lubrication and along our 35+ year journey – many others believed in us too. Superior technology transcends sport to enhance the experience of consumers and racers alike. Our market leading products are used in over 50 countries around the globe and include engine oils, suspension fluids, coolants, care products and accessories. These products represent our commitment to excellence and a passion for redefining what is possible.

We challenge you to experience the difference with Maxima. Ultimate performance, unbeatable protection and a love of motorcycles defines Maxima. Countless hours of development, focused purely on the Powersports market, has enabled Maxima to be a top choice for all makes, models and brands.

Founded in 1979 and headquartered in Southern California, Maxima is recognized as one of the most coveted brands in the motorcycle industry. Decades of active involvement in motorcycling has led to powerful technology and a full array of market leading products.

# 4-STROKE PERFORMANCE

**PERFORMANCE GUARANTEED BY MAXIMA RACING OILS** Modern 4-stroke engine design has drawn inspiration from racing applications around the world with minimalistic designs, exotic materials and increased power and efficiency. Demand on engines is higher than ever – whether recreational, racing or working – modern engines have a unique appetite for performance inspired oils that offer peak performance, protection from wear and keep them running clean and trouble-free.

Maxima's 4T engine oil line up defines industry leading. Proprietary additive systems and the extensive use of ester synthetics create next generation engine oils. Maxima draws inspiration from the thousands of riders, racers and professional mechanics that have made Maxima the #1 aftermarket oil in the USA Powersports industry. Aggressive development programs and OEM relationships make Maxima the right choice for all brands. Guaranteed performance backed by JASO and API credentials gives the consumer confidence that Maxima is the right choice.

### **530MX** 100% SYNTHETIC FULL RACE GRADE

100% synthetic triple ester 4T engine oil. Developed on the world's toughest race tracks, 530MX produces more horsepower, increases torque and provides excellent clutch feel. Advanced additives ensure the ultimate in protection for critical engine, transmission and clutch components. High temperature detergents keep your engine running clean and trouble-free, while the ultra shear-stable polymer system maintains constant viscosity, minimizing viscosity loss and clutch fade. There is no better choice for MX racing motorcycles. Exceeds all OEM specifications.

Available in: Liter

### **530RR** 100% SYNTHETIC FULL RACE GRADE

100% synthetic triple ester 4T engine oil. Developed on the world's toughest race circuits, 530RR produces more horsepower, increases torque and provides excellent clutch feel. Advanced additives ensure the ultimate in protection for critical engine, transmission and clutch components. High temperature detergents keep your engine running clean and trouble-free, while the ultra shear-stable polymer system maintains constant viscosity, minimizing viscosity loss and clutch fade. There is no better choice for modern hi-revving road racing motorcycles. Exceeds all OEM specifications.

Available in: Liter

### **EXTRA** 100% SYNTHETIC TRIPLE ESTER 0W-10 • 5W-40 • 10W-40 • 15W-50 • 10W-60

100% synthetic triple ester 4T engine oil. Formulated for street and off-road wet clutch applications. Surface active ester technology lowers operating temperatures, reduces wear, increases film strength and offers extended protection. Regenerative polymer system resists mechanical shearing and heat breakdown of the oil offering exceptional viscosity retention in severe climates. Exceeds all OEM specifications.

API SL/SJ/SH/SG, JASO MA

Available in: Liter/128oz

### **PRO PLUS+** 100% SYNTHETIC ESTER 10W-30 • 10W-40 • 10W-50 • 20W-50

100% synthetic ester fortified 4T engine oil. Formulated to exceed JASO MA2 requirements for 4-stroke engines with integrated wet clutches. Designed to prolong clutch life and provides excellent feel. Surface active chemistry lowers engine temperatures, increases film strength and extends oil drain intervals. Balanced additive system minimizes engine deposits while protecting critical engine, transmission and clutch components. Exceeds all OEM specifications.

API SL/SJ/SH/SG, JASO MA2

Available in: Liter/128oz

### **SYN BLEND** ESTER BASED SYNTHETIC BLEND 10W-40 • 20W-50

Ester based synthetic blend 4T engine oil. Surface active chemistry lowers engine temperatures, increases film strength and extends oil drain intervals. Balanced additive system minimizes engine deposits while protecting critical engine, transmission and clutch components. Shear-stable polymers resist mechanical breakdown to maintain consistent viscosity. Exceeds all OEM specifications.

API SL/SJ/SH/SG, JASO MA2

Available in: Liter/128oz

### **PREMIUM** PETROLEUM BASED 5W-30 • 10W-30 • 10W-40 • 20W-50

High quality, petroleum 4T engine oil features proprietary additive system to minimize engine deposits while protecting critical engine, transmission and clutch components. Shear-stable polymers resist mechanical breakdown to maintain consistent viscosity. Motorcycle specific formula designed for use in wet clutch applications. Formulated for street and off-road applications with single and multi-cylinder engines. Exceeds all OEM specifications.

API SL/SJ/SH/SG, JASO MA2

Available in: Liter/128oz

# PROFESSIONAL TUNER SERIES

## PROPER BREAK-IN OF NEW, RACE & REBUILT ENGINES INCREASES DURABILITY & PERFORMANCE.

Proper engine break-in will produce an engine that achieves maximum power output with the least amount of oil consumption. A new engine should be broken in using specific guidelines during the first few hours. Maxima Break-In Oil should be part of your routine procedure during the initial 2-3 hour run-in time. The focus of breaking in an engine is on the contact between the piston rings of the engine and the cylinder wall. When the piston rings are broken in or seated, combustion gases aren't able to escape the combustion chamber past the piston rings into the crankcase section of the engine. This lack of "blow-by" keeps your engine running cleaner and cooler by preventing hot combustion gases and by-products from entering the crankcase. The tighter the piston rings are set in, the longer an engine is expected to last. Maxima Break-In Oil improves piston ring seal during initial break-in and protects cams and lifters from extreme loads and "welding" caused by severe hot spots.

### **PREMIUM BREAK-IN** PETROLEUM BREAK-IN SPECIFIC OIL 10W-30

Specifically designed for breaking in engines with flat tappet camshafts, roller elements or where elevated levels of anti-wear additives are needed. Advanced technology provides optimum ring seal. Formulated with high levels of zinc and phosphorous in a highly refined, pure petroleum base oil. Complex 2X Zinc structure activates at lower temperatures and offers more protection at elevated temperatures than conventional oils.

- For use in the break-in of engines including Motorcycle, ATV, Side-By-Side, PWC and more.
- Safe for use in wet clutch systems.
- Excellent general purpose dyno oil.
- Compatible with petroleum, semi-synthetic and full synthetic motor oils.
- Delivers long-term benefits to new or rebuilt engines.

Use for unsurpassed protection against critical engine component wear. Fully formulated and perfectly balanced requiring no other additives. Dyno tests show more efficiency in the break-in phase when using Maxima Premium Break-In Oil.

Available in: Liter, 5-Gal Pails & 55-Gal Drums

4-STROKE ENGINE OILS

4-STROKE ENGINE OILS

**PWC MARINE 4T**  
**ADVANCED MARINE FORMULA**  
**10W-40**

Specially formulated to perform in 4-stroke PWC and outboard engines. Formulated with the latest additive technology ensuring a smooth, clean running engine. Surface active chemistry helps protect the engine from extreme pressures, scuffing, runaway temperatures and thermal degradation. Offers outstanding rust and corrosion protection. There is no better choice for 4-stroke watercrafts. Exceeds FC-W specifications.

API SL/SJ/SH/SG

Available in: Liter

**ATV PREMIUM 4T**  
**PETROLEUM BASED**  
**10W-40**

Specially formulated for modern ATVs. Proprietary additive system combines with a shear stable polymer system to provide unsurpassed protection against wear, oxidation, thermal breakdown and viscosity loss. Wet clutch formula offers outstanding fade-free clutch performance. Formulated with the latest technology to keep your engine operating smooth, clean and trouble-free. Exceeds all OEM specifications.

API SL/SJ/SH/SG, JASO MA2

Available in: Liter

**SNOWMOBILE 4T**  
**COLD CLIMATE FORMULA**  
**5W-30**

Specially formulated with a low pour point to perform in cold climates. Advanced additive system contains extreme pressure and anti-wear agents to protect your engine from metal-to-metal contact. Keep your engine running smooth and deposit free. Additional rust and corrosion components protect your engine against wet environments for trouble-free operation.

API SL/SJ/SH/SG

Available in: Liter

**SCOOTER 4T**  
**METRO FORMULA**  
**10W-40**

Specially formulated for modern, free-revving scooters and mopeds. Designed to handle the stresses placed on modern engines defined by constant stop-and-go traffic, excessive idling and fully loaded engine operation. A unique blend of the latest anti-wear additives with an advanced detergent system to keep your engine running smooth and trouble-free in any season. Exceeds all OEM specifications.

API SL/SJ/SH/SG

Available in: Liter

**SXS ENGINE SYNTHETIC**  
**100% SYNTHETIC ENGINE OIL**  
**0W-40 • 5W-50 • 10W-50**

100% synthetic ester fortified 4-stroke engine oil. Robust formulation lowers operating temperatures, increases power output and offers unsurpassed engine cleanliness through its proprietary additive system. Formulated with a unique balance of surface active anti-wear and extreme pressure additives with high quality synthetic base oils to ensure smooth, trouble-free operation for extended periods. Shear stable polymers resist mechanical breakdown of the engine oil to maintain consistent viscosity. Exceeds all OEM specifications.

API SL/SJ/SH/SG

Available in: Liter

**SXS ENGINE PREMIUM**  
**PREMIUM ENGINE OIL**  
**10W-40**

High performance, premium 4-stroke engine oil designed for use in modern side-by-side vehicles. A unique balance of surface active anti-wear and extreme pressure additives with ultra-pure petroleum base oil to ensure smooth, trouble-free operation for extended periods of time. Shear-stable polymers resist mechanical breakdown of the engine oil giving excellent stay-in-grade performance. Exceeds all OEM specifications.

API SL/SJ/SH/SG, JASO MA2

Available in: Liter

**V-TWIN 100% SYNTHETIC**  
**ENGINE OIL**  
**20W-50**

100% synthetic ester fortified engine oil engineered and approved to be used as a multi-compartment oil for H-D V-Twin engines, transmissions and primaries. Surface active ester technology lowers operating temperatures, reduces wear, increases film strength and offers extended protection. Regenerative polymer system resists mechanical shearing and heat breakdown of the oil offering exceptional viscosity retention in severe climates. Ultra-clean additive package keeps engines clean, protects against sludge and allows for trouble-free operation. Exceeds all OEM specifications.

API SL/SJ/SH/SG

Available in: 32oz

**V-TWIN SYNTHETIC BLEND**  
**ENGINE OIL**  
**20W-50**

Ester based synthetic blend motorcycle oil specifically formulated for V-Twin engines. Surface active ester technology lowers operating temperatures, reduces wear, increases film strength and offers extended protection. An advanced polymer system resists mechanical shearing and heat breakdown of the oil offering unsurpassed viscosity retention. Ultra-clean additive package keeps engines clean, protects against sludge and allows for trouble-free operation. Exceeds all OEM specifications.

API SL/SJ/SH/SG

Available in: 32oz

**V-TWIN MINERAL**  
**ENGINE OIL**  
**10W-40 • 20W-50 • 25W-60**  
**50WT • 60WT • 70WT**

High quality, mineral based oil specifically formulated for V-Twin engines. An advanced polymer system resists mechanical shearing and heat breakdown of the oil offering unsurpassed viscosity retention. Engineered with industry leading anti-wear and extreme pressure additives to protect critical engine components. Superior additive package keeps engines clean, protects against sludge and allows for trouble-free operation. Exceeds all OEM specifications.

API SL/SJ/SH/SG

Available in: 32oz

NOTE: 20W-50 ALSO AVAILABLE IN 128oz

**DIABLO**  
**OPTIMIZED FOR LOW CC MOTORCYCLES**  
**20W-50**

Exclusive blend of high quality mineral base oils and advanced shear stable polymers that assure viscosity stability in extreme high heat and stop-and-go operating conditions. Unique anti-wear additives provide the ultimate protection against engine wear on pistons, valvetrain and gears. Active detergents keep the engine clean, offering smooth, trouble-free performance. Formulated to protect critical engine, transmission and clutch components and to extend engine life.

API SL/SJ/SH/SG, JASO MA2

Available in: Liter

ONLY AVAILABLE IN LATIN AMERICA

# 2-STROKE PERFORMANCE

## HERITAGE CAN'T BE BOUGHT

Maxima revolutionized the industry by introducing Castor 927 in the 70's. 927 is still the #1 selling performance 2-stroke oil in most markets around the world. Proven performance, unbeatable protection and the greatest smelling 2-stroke oil on the planet!

Performance inspired 2-stroke engine oils to meet the demands of modern 2T engine designs. Maxima formulates engine oils for premix racing to DFI applications to offer the most complete line-up of 2-stroke engine oils in the industry. Surface active ester synthetics, pure base oils and clean burn technology work in harmony to increase horsepower, reduce wear and to offer smooth, clean, trouble-free operation in high stress operating conditions.

**CASTOR 927  
PRO SERIES 2T**

Advanced ashless formula blends special castor base with exotic ester synthetics providing the ultimate racing 2T engine oil. Biodegradable formula is fortified with clean burning additives to reduce power valve maintenance, prevents rust & oxidation, eliminates ring sticking and reduces carbon build-up. Generate more horsepower with improved ring seal and significantly lower friction. Premix only.

Available In: 16oz/Liter/64oz

**FORMULA K2  
100% SYNTHETIC ESTER**

100% synthetic ester high performance 2T engine oil. High film strength provides superior protection for pistons, cylinder walls, cranks and bearings. Advanced additive system eliminates ring sticking, reduces carbon build-up, prevents rust & oxidation and minimizes power valve maintenance. Suitable for all forms of competition. Safe to use with leaded or unleaded gasoline. Exceeds all OEM specifications. Premix only.

JASO FD, ISO-L-EGD and API TC

Available In: 16oz/Liter/64oz

**SUPER M  
SYNTHETIC BLEND ESTER**

Smokeless, low ash ester based synthetic blend 2T engine oil. Designed for use in all high performance 2-stroke engines. Ester synthetics offer high film strength and reduced friction allowing for efficient running engines. Ultra-clean burn technology prevents ring sticking and keeps pistons and exhaust tracts carbon-free. Exceeds all OEM specifications. Premix only.

JASO FD, ISO-L-EGD and API TC

Available In: 16oz/Liter/64oz

**SUPER M INJECTOR  
SYNTHETIC BLEND ESTER**

Smokeless, low ash ester based synthetic blend 2T engine oil. Ester synthetics offer high film strength and reduced friction allowing for efficient running engines. Ultra-clean burn technology prevents ring sticking and keeps pistons and exhaust tracts carbon-free. Blended with special base stocks designed for use in oil injector and autolube systems. Safe to use with catalytic converters. Exceeds all OEM specifications. Injector or premix.

JASO FD, ISO-L-EGD and API TC

Available In: Liter/128oz

**SCOOTER PRO 2T  
SYNTHETIC BLEND**

Smokeless, synthetic blend 2T engine oil specially formulated for scooters and mopeds. Ideal for either gasoline premix or oil injected engines. Eliminates plug fouling, ring sticking and reduces the formation of carbon. Provides excellent anti-scuff, anti-wear and rust & corrosion protection. Exceeds all OEM standards. Premix, injector or autolube.

JASO FD, ISO-L-EGD and API TC

Available in: Liter

**SCOOTER 2T  
PETROLEUM BASED**

Low smoke, petroleum blend 2T engine oil specially formulated for scooters and mopeds. Ideal for either gasoline premix or oil injected engines. Eliminates plug fouling, ring sticking and reduces the formation of carbon. Provides excellent anti-scuff, anti-wear and rust & corrosion protection. Exceeds all OEM standards. Premix, injector or autolube.

JASO FC and API TC

Available in: Liter

**TUNDRA R  
SYNTHETIC BLEND ESTER**

Smokeless, ashless environmentally friendly ester based synthetic blend 2T engine oil. Specifically formulated for use in high performance snowmobile engines with power valves. Unique additives provide excellent anti-scuff, anti-wear and rust & corrosion protection. Extremely low pour point of -50°F for cold weather conditions. Exceeds all OEM specifications. Premix, injector or autolube.

JASO FD, ISO-L-EGD and API TC

Available in: Liter/128oz

**TUNDRA  
SYNTHETIC BLEND**

Low smoke, low ash synthetic blend 2T engine oil specifically formulated for use in high performance snowmobiles with power valves. Provides excellent anti-scuff, anti-wear and rust & corrosion protection. Extremely low -45°F pour point for cold weather conditions. Exceeds all OEM specifications. Premix, injector or autolube.

JASO FD, ISO-L-EGD and API TC

Available in: Liter/128oz

**BIO 2T  
100% SYNTHETIC ESTER**

Biodegradable high performance 100% synthetic ester 2T engine oil. Unique ashless formula reduces power valve maintenance, prevents rust and corrosion and eliminates ring sticking. Advanced additive system provides unsurpassed high temperature, high speed protection for critical engine components. Extremely clean burning and recommended for use in environmentally sensitive areas. Ratios 24:1 to 60:1 to match engine requirements. Exceeds all OEM specifications. Injector or Premix.

JASO FD, ISO-L-EGD and API TC

Available in: Liter

**MARINE PRO  
PETROLEUM BASED TC-W3**

Ashless, petroleum based 2T engine oil specifically formulated for personal watercraft and outboard motors. Meets or exceeds all OEM & NMMA TC-W3 specifications. Provides reduced carbon, excellent anti-wear and rust & corrosion protection. Clean burn technology. Safe to use with catalytic converters. Premix, injector or autolube.

NMMA TC-W3

Available in: Liter/128oz

**PREMIUM2  
SYNTHETIC BLEND ESTER**

Smokeless, ashless, ultra-clean burning ester based synthetic blend 2T engine oil. Designed for use in applications where constant throttle positions are the norm, such as high performance personal watercraft, snowmobile and outboard motors. Provides exceptional anti-wear and rust & corrosion protection. Safe to use with catalytic converters. Exceeds all OEM requirements. Premix, injector or autolube.

JASO FD, ISO-L-EGD, NMMA TC-W3

Available in: Liter/128oz

# TRANS-GEAR PROTECTION

## MAXIMA TRANS-GEAR OILS OFFER MAXIMUM PROTECTION & PERFORMANCE

What drives you? Maxima is driven by offering end users the best performance and protection possible. Transmissions and gearboxes see incredible demands under even normal use with elevated loads, high operating temps and extended drain intervals. Unique designs provide smoother, quieter operation, but pose challenges for the lubricant. Compact units, aggressive cuts on gear teeth and wet clutch systems require specific fluids designed for those applications. Maxima offers a complete line of transmission and gear oils for everyday use to extreme racing conditions. All applications, everyday – SXS, off-road motorcycle and V-Twin.

**TRANS-GEAR & CHAINCASE OILS**

Made In The USA

# ZERO FADE PERFORMANCE

## ZERO FADE FORMULAS PUT A DAMPER ON THE COMPETITION

Suspension tuning is critical for proper handling and ride comfort. One of the most important aspects of a proper tune is the fluid the fork or shock is serviced with. High performance suspension fluids play a role in controlling rebound and damping. This insures your wheels hug the ground to transfer engine power to propel you forward. Replicate this scenario a thousand times over each ride and you'll quickly understand the importance of maintaining consistent fluid dynamics over extended periods of time. When suspension fluids breakdown, so does the handling of your equipment. Insure your ride is the best experience possible by using high quality Maxima suspension fluids.

**V-TWIN FORK OIL**  
**5WT H-D TYPE E, 10WT H-D TYPE B**  
**& 20WT H-D TYPE HD**

Premium quality, ultra-pure base oils and surface active additives that provide excellent lubricity, control foaming and protect the suspension system against corrosion. Special Lubricinol™ formula conditions seals, protects moving parts and reduces stiction to enhance fork performance over a wide operating temperature range. Advanced detergents provide ultra-clean operation and protect suspension systems from wear, deposits and allow for trouble-free operation.

Available in: 32oz

**SYN RACING SHOCK FLUID**  
**100% SYNTHETIC**  
**LIGHT 3WT**

100% synthetic ester shock fluid. Formulated to withstand extreme temperatures and loads. Blended to the tight specifications required by racing professionals. Ultra-clean additive system ensures clean, trouble-free operation over extended usage periods. Regenerative synthetic polymers resist mechanical shearing and viscosity breakdown, offering the ultimate protection and film strength. Extremely high viscosity index over 350+ minimizes the rate of viscosity change and volumetric expansion under high temperatures. Active chemistry controls foam and wear. Compatible with petroleum and synthetic suspension fluids.

Available in: 32oz

**RACING SHOCK FLUID**  
**ZERO FADE FORMULA**  
**LIGHT 3WT • MEDIUM 7WT • HEAVY 10WT**

Formulated with special slippery agents that reduce friction and eliminate stiction. Ultra-clean additive system ensures clean, trouble-free operation over extended usage periods. Regenerative synthetic polymers resist mechanical shearing and viscosity breakdown, offering the ultimate protection and film strength. Extremely high viscosity index over 350+ minimizes the rate of viscosity change under high temperatures. Active chemistry controls foam and wear. Compatible with petroleum and synthetic suspension fluids.

Available in: 32oz

**RACING FORK FLUID**  
**ANTI-STICTION FORMULA**  
**5WT • 7WT • 10WT • 15WT**

Specially formulated for all high performance cartridge and standard-type forks. Custom blended slippery agents provide uniform fork action and eliminate stiction. Regenerative synthetic polymers offer a high viscosity index (190+) that resists mechanical shearing and viscosity breakdown, offering the ultimate protection and film strength. Ultra-clean additive system conditions seals and ensures clean, trouble-free operation over extended usage periods.

Available in: Liter

**FORK OIL**  
**CARTRIDGE & CONVENTIONAL FORKS**  
**5WT • 10WT • 15WT • 20WT**

Premium quality, ultra-pure base oils and surface active additives that provide excellent lubricity, control foaming and protect the suspension system against corrosion. Special Lubricinol™ formula conditions seals, protects moving parts and reduces stiction to enhance fork performance over a wide operating temperature range. Advanced detergents provide ultra-clean operation and protect suspension systems from wear, deposits and allow for trouble-free operation.

Available in: 16oz/Liter

# OUR AEROSOLS OUTSHINE

### MAXIMA RACING OILS LEADS THE INDUSTRY WITH ITS AEROSOL LINE

With top selling products in all categories, it's hard to overlook the strength of Maxima's aerosol line. Our wide aerosol product line offers award winning SC1 high gloss coating – with seemingly endless possibilities – to the #1 selling chain lube in the market, Maxima Chain Wax.

### SC1 MAKES THE WORLD SHINY

Restores factory shine in seconds. For use on plastic, rubber, carbon fiber and painted surfaces. High gloss shine provides excellent mud deflection and repels water.

## SC1 MAKES THE WORLD SHINY

### SC1 HIGH GLOSS COATING

A factory mechanic's best kept secret for bringing tattered equipment back to life. Advanced formula blends conditioners with color enhancers to produce a brilliant shine. Easy application – can be sprayed on surface and left wet or buffed to a dry sheen. Wet application helps prevent mud from accumulating on surface. Restore the showroom shine in one easy application. Ride, clean and SC1 your ride to keep it working and looking its best.

Available in: 12oz

### SPEED WAX PROFESSIONAL FORMULA

An all-in-one detailer that conditions, shines and protects painted surfaces, chrome, anodizing, windscreens and plastic. Advanced formula blends conditioners with color enhancers to produce a brilliant shine. Easy application and removal – designed to minimize effort and maximize shine – the quickest way to detail your ride. Soothing wax sets up quickly and easily wipes from smooth surfaces. A single application is all it takes.

Available in: 15.5oz

## SPEED WAX SPEED DETAILER

### hih5&8h:f8AY°&W8 h5&Y:W°-nAY°&W8&g

Specifically formulated for the Powersports industry professional. Unique formula quickly and easily cleans suspension internally and externally leaving a dry, residue-free surface. Professional formula integrates strong industrial cleaners with a powerful spray. Displaces moisture. Overspray will not harm O-rings or most seal materials. User Friendly Scent.

Available in: 13oz

### &°&Y-g:YW°AYf8-WY-AY°&W8 Y:-gihAhY&8-&a

Citrus scented, heavy duty aerosol cleaner is a blend of special cleaning agents that displace moisture and remove grease, oil and other contaminants. Extra heavy propellant charge provides maximum spray pressure for hard to reach areas. Outstanding for use on ignitions, spark plugs, electrical components or when a fast drying cleaner is needed. Non-caustic, No CFC's.

Available in: 13oz

JOSH GRANT HLTN CO. SUZUKI

## CLEAN UP UNLEASHES HORSEPOWER

### Y°&W8i5 YcW:8AY°&W8&g

Heavy duty, emulsion-type cleaner designed to thoroughly clean chains without harming rubber O-rings or metal surfaces. Outstanding performance on aluminum. Quickly dissolves and removes hard to clean buildup on your chains. Stop robbing horsepower. For best results, use CleanUp with your routine maintenance.

Available in: 15.5oz

### e55° ei°-:l5ig5fh&A5&8&-gW8-A°iX&

A superior, all-purpose spray-on penetrating lubricant. Provides a light lubrication and excellent barrier against rust & corrosion. Great for displacing moisture or loosening corroded nuts and bolts. Film forming protectant for metal surfaces and will not harm plastic or painted surfaces. Excellent fogging oil and starting fluid for engines.

Available in: 14.5oz

# RACE PROVEN WORLDWIDE

## PROFILTER HIGH PERFORMANCE AIR & OIL FILTERS

Designed to protect off-road motorcycles, ATVs and SXS. A full range of products including industry leading ready-to-use, pre-oiled air filters, providing value to those looking for quick and easy maintenance on the trail or in the garage. Increase horsepower, oil flow and eliminate wear with premium ProFilter oil filters, covers and two different air filter designs.

# READY-TO-USE

PRE-OILED WITH MAXIMA FFT™ 

## PROFILTER PRE-OILED, DISPOSABLE AIR FILTERS READY-TO-USE, READY-TO-RACE

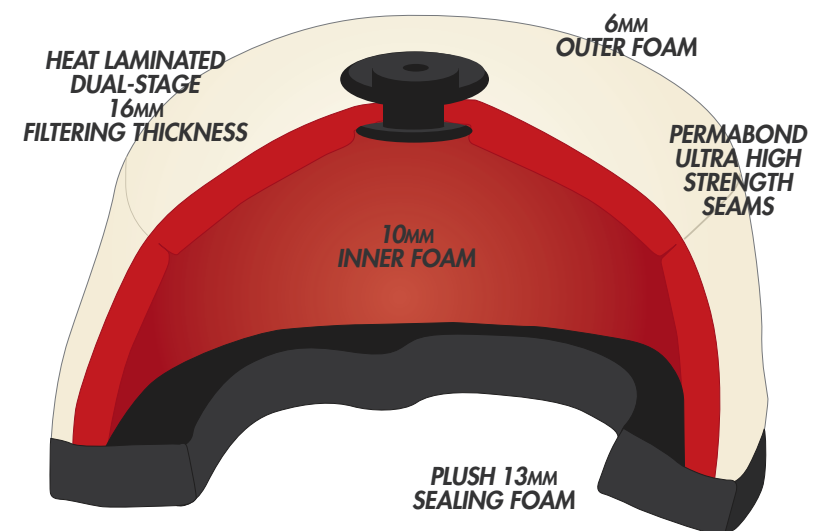

A new perfectly oiled ProFilter air filter provides maximum airflow and increased horsepower. Ready-to-Use air filters are constructed of dual-layer, reticulated foam. Reticulation is a process that opens up the foam cells, allowing for increased air flow and horsepower. The dual foam layers differ in foam pore size – the innermost foam consists of a more dense foam to catch fine particles of sand and powder, whereas the outermost foam is constructed of a more open pore matrix allowing for filtration of larger micron dirt particles. The open porosity of the outer foam also helps the air filter resist plugging. Air filter seams are welded with industrial strength adhesive and all filters come with a rubber grommet to help secure the filter in place to the cage, eliminating tearing and keeping the structural integrity of the filter intact. When you get ready to change your filter, choose ProFilter.

### PRE-OILED DUAL-STAGE FOAM AIR FILTER LOADED WITH FEATURES!

#### READY-TO-USE FILTER FEATURES

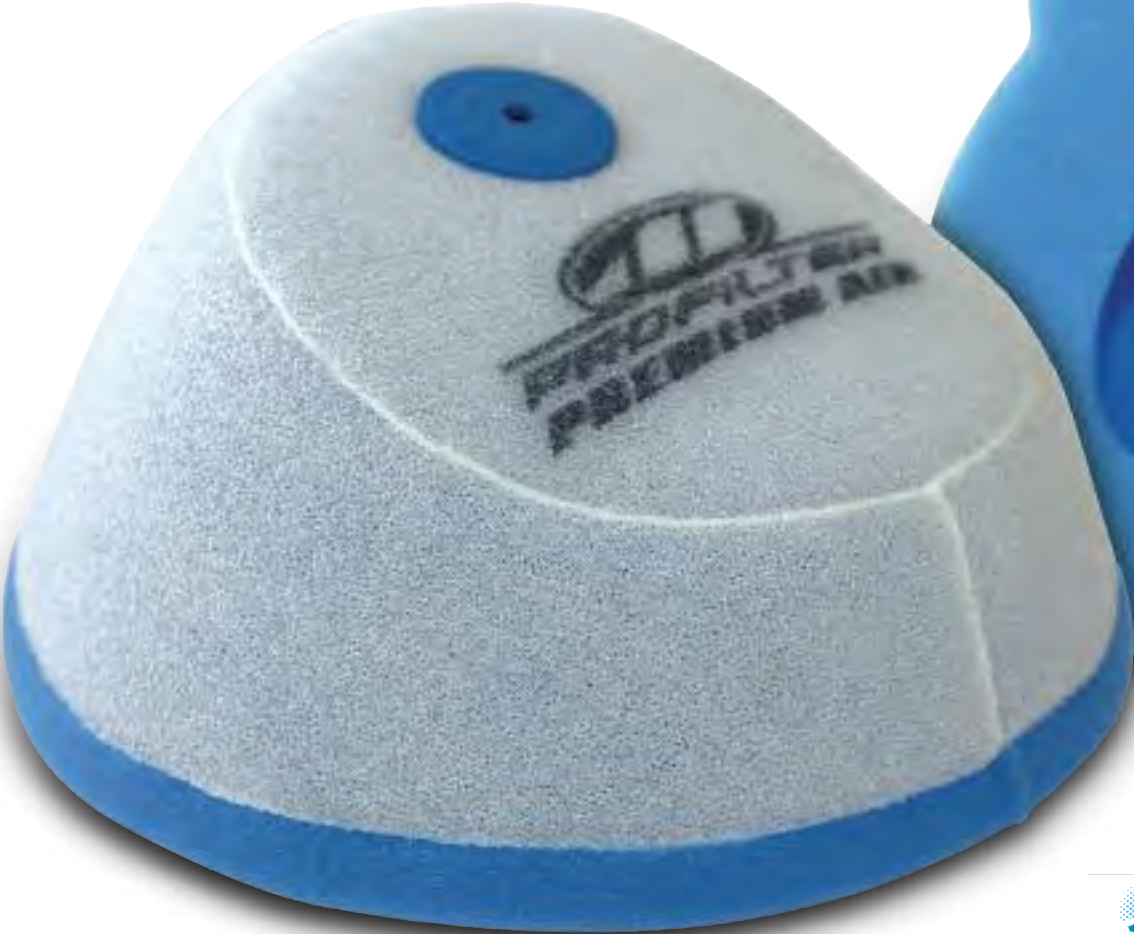

- Pre-Oiled with MAXIMA FFT™
- Dual-Stage Open Cell Foam Matrix
- Plush 13mm Sealing Foam
- Dyno Tested, Race Approved
- Disposable Gloves Included
- Affordable, Disposable Air Filters

MOTORCYCLE, ATV & SIDE-BY-SIDE APPLICATIONS

# DYNO TESTED AND RACE PROVEN!

## PROFILTER DUAL-STAGE PREMIUM AIR FILTERS WASH AFTER WASH, READY-TO-RACE

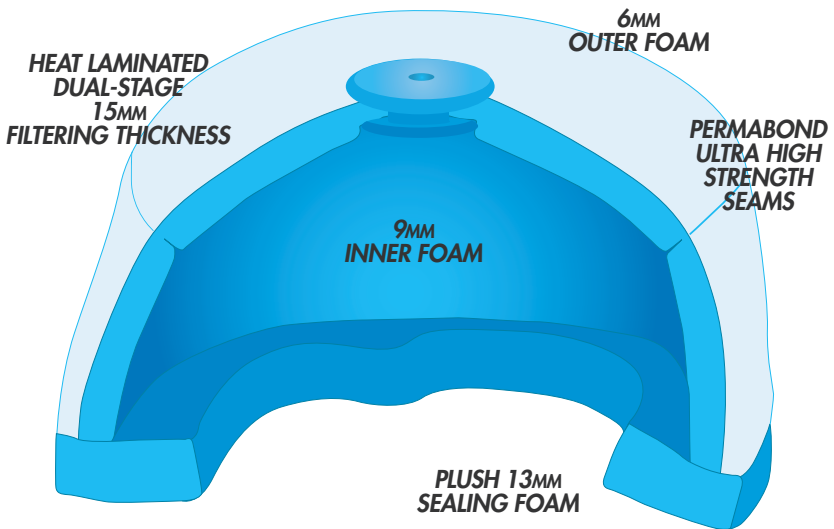

Dual-stage, long life, Premium Air filters are made of chemical resistant, high quality polyester based foam. Heat laminated, dual-stage design allows for superior filtration by eliminating the passage of fine dirt and dust, while helping to prevent air flow blockage. Special reticulation process offers unsurpassed air flow and filtration. Permabond ultra-high strength seams increase the integrity of the filters wash after wash. Packaged individually in a re-sealable bag.

### PREMIUM, LONG LIFE, DUAL-STAGE AIR FILTER LOADED WITH FEATURES!

#### PREMIUM FILTER FEATURES

- Reusable Long Life Air Filter
- Chemical Resistant, Polyester Based Foam
- 15mm High Flow Filtering Thickness
- Heat Laminated, Dual-Stage, Reticulated Foam
- Permabond Ultra-High Strength Seams
- Low Profile Rubber Grommet
- Plush 13mm Sealing Foam
- Re-Sealable Polybag
